

## Motion to Request to change Signage at CV PUBLIC LIBRARY

At a recent city council meeting, there was no parking available within the city council parking lots. The lots were full. There was a large crowd at this meeting and the meeting lasted until after 11:00 P.M. I parked in the library parking lot, as I expected the meeting to adjourn by 9:00. I did this, knowing that parking along all residential streets in the area is at a premium and I do not live on those streets. It was the courteous thing to do.

When the meeting concluded I went, along with two other people, back to our parked cars in the library parking lot. To our dismay the gates had been locked and our cars were now prisoners of an overlong council meeting. To add insult to injury, we were all given parking tickets of \$47.50.

I propose a motion to keep the library parking lot open and available on city council meeting nights until midnight to handle the overflow of residents interested in our city council agendas. There is already signage at the council parking lots that could be used at the public Library as well.

I respectfully request this be addressed at the very next council meeting.

Respectfully,

Terri Lawson
