Good evening,

This is my e comment for item 6.2 Tenant Protections.

Me and my husband have suffered and have been victims of harassment, discrimination, and unlawful eviction. This has been going on since April of 2022 until present. We are residents of Chula Vista and have been all our lives. We are on F street. It has affected my health disability. They never fixed the mold in the carpet, we have a roach, and infestation. I have been bitten by bugs and have had flares due to my condition. The landlord and apartment manager were notified and they didn't care. Instead they wanted to evict us, and for us to be homeless. The apartment manager has laughed at me, smirked at us, and even brought her friends over to try and scare us and to try and make our living situation horrible. Me and my husband have remained strong but the health hazards in this unit and in the whole building is unsafe for the whole community. Please I ask you to highly consider passing this extremely important ordinance to stop these illegal evictions, harassment, and denial of fixing apartments due to unsafe health conditions. I have had visits to my doctor and urgent care so many times due to this situation. I am a remote college student and the manager purposefully disturbs me while I am in my home. Her boyfriend has peeked to see what my husband is doing like delivering food to our friendly neighbors or even throwing the trash. They also denied a refrigerator to the wonderful senior neighbors. And we have proof that they had new refrigerators and appliances in their garage room. They just love to us tenants. Its been two years they don't call pest control. We have had lizards, mice, roaches, mosquitoes and now ants. Please do something about this. The neighbors have their own locks and sticks by the windows because the homeless have entered by force the building. They even took a shower in our laundry room. When my husband informed the manager, she never closed the laundry room or did anything to fix it. Please pass this law to protect us tenants and advise us of how to report these people!. Thank You
