Suggested donation: VIP: \$75, \$50, Regular: \$35 or \$30
(\$25 for SCEDC Members, friends and family)

Volunteers needed and welcome please contact Alan (above)

Reduce the cost of driving. Save up to 30%. Drive intelliGently!

Save up to 20% by driving 60 mph instead of 80 mph!

How to save up to 30% on gas:

Reduce trips, walk, ride a bike, use public transit, share rides, take the train.
Slow down. Every mph over 55 mph loses 1% mileage.
Slow down before stop lights, glide through the green light when it changes.
Drive an electric, hybrid or at least a more fuel efficient vehicle.
Change your air filter when needed.
Keep engine tuned,
Keep tires inflated to proper pressure preferably with nitrogen.
Reduce use of air conditioning.
Keep car cooler in the summer and warmer in the winter by parking in a garage.
Park in the shade and use window shades when it is hot.
Jettison excess weight & cargo.
Avoid tailgating which leads to excess braking and acceleration, wasting gas!
Use good judgment and common sense to find more ways to save.
Save time by avoiding accidents!

Gasoline obeys the law of supply and demand. If we all use less gas, prices WILL come down! The time, energy, money, gas, life (and planet) you save may be your own!
