Regarding agenda item 5.5/Boards and Commissions: the City should show its commitment to democracy by encouraging citizen empowerment and participation, as if the representatives serve the citizens, by Not eliminating Boards and Commissions. If thought is actually given to this attempt, commissions rather should be Added, such as is being done in cities such as San Diego and Portland. The number of Boards and Commissions in the city should be a source of pride and valued, not diminished.

Sincerely,

Todd G. Glanz, Esq.
