

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

[*NOTE: The inventory of certain items of consumable military equipment (i.e. ammunition, diversionary devices, chemical agents, etc.) can fluctuate throughout the year. This can be due to operational usage, training usage, operational wear, and/or manufacturer recommended replacement guidelines. While the Department strives to provide accuracy in its inventory reporting as prescribed by law, this attachment reflects approximations of certain consumable items of military equipment at the time of this policy's publication.]

A. Unmanned Remotely Piloted, Powered Aerial or Ground Vehicles

1. Uncrewed Aircraft System (UAS): An unmanned aircraft along with the associated equipment necessary to control it remotely.¹

Description and capabilities:

- a. **DJI MAVIC MINI 2**, Miniature UAS that weighs approx. 249 grams and can record video and audio with approximately 30 minutes of flight time.
- b. **DJI INSPIRE 2**, UAS with a 4K camera, weighs approx. 4001 grams and has video recording capabilities, approx. 27 minutes of flight time.
- c. **DJI MAVIC 2 ENTERPRISE**, UAS with a HD camera, audible speaker, and light, weighs approx. 900 grams. Has video recording capabilities, approx. 31 minutes of flight time.
- d. **DJI MAVIC 2 ENTERPRISE ADVANCED**, UAS with a 4K thermal camera, audible speaker, and light. Weighs approx. 1100 grams, approx. 31 minutes of flight time.
- e. **DJI M300 with H20T/N**, UAS that has 45 minutes of flight time, in all weather, has an IR camera, zoom camera and light. Weighs approx. 6300 grams. Has video recording capabilities.
- f. **DJI M350 with H20T**, UAS that has 55 minutes of flight time, in all weather, has an IR camera, zoom camera and light. Weighs approx. 6470 grams. Has video recording capabilities.
- g. **DJI M210v2 with z30**, UAS that has 35 minutes of flight time, in all weather, has an IR camera, zoom camera and light. Weighs approx. 6140 grams. Has video recording capabilities.
- h. **DJI PHANTOM 4**, UAS with a 4K camera, has video recording capabilities. Weighs approx. 1380 grams.

¹ Government Code section 7070 uses the term “unmanned” where the FAA uses the term “uncrewed.” For compliance with the Government Code reporting purposes and consistency, this report will use the term “unmanned”

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

- i. **DJI MAVIC 2 ZOOM**, UAS with a 4K camera, weighs approx. 905 grams. Has video recording capabilities, approx. 31 minutes of flight time.
- j. **DJI MAVIC PRO**, UAS with a 4K camera, weighs approx. 743 grams. Has video recording capabilities, approx. 27 minutes of flight time.
- k. **SKYDIO 2**, UAS with 4K camera, weighs approx. 775 grams. Has video recording capabilities, approx. 23 minutes of flight time.
- l. **SKYDIO X2 (Color/Thermal)**, UAS with 4K and thermal camera, weighs approx. 1325 grams. Has video recording capabilities, approx. 35 minutes of flight time.
- m. **PARROT ANAFI**, UAS with 4K thermal camera, weighs approx. 320 grams, has video recording capabilities, approx. 25 minutes of flight time.
- n. **BRINC LEMUR S**, UAS with 1080p HD and IR camera, weighs 1088 grams. Has video recording capabilities, approx. 31 minutes of flight time.
- o. **DJI AVATA**, UAS with 4K camera, weighs approx. 410 grams. Has video recording capabilities, approx. 18 minutes of flight time.

Purpose

To be deployed when its view would assist officers or incident commanders with the following situations, which include but are not limited to:

- Major collision investigations
- Search for missing or wanted persons
- Fires
- Major incidents
- Calls for service
- Natural disaster management
- Crime scene photography
- SWAT, tactical or other public safety and life preservation missions
- In response to specific requests from local, state, or federal fire authorities for fire response and/or prevention

Authorized Use

Only assigned UAS operators who have completed the required training shall be permitted to operate any of the Unmanned Aerial Systems.

**ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)**

Expected Lifespan

All UAS equipment, 3- 5 years.

Quantity, Cost, and Fiscal Impact (with photos)

Unmanned Remotely Piloted, Powered Aerial or Ground Vehicles			
Unmanned Aircraft Systems (UAS)			
Equipment Name and Model / Manufacturer	Quantity	Initial Cost (Per Unit)	Fiscal Impact (FY 23 & 24) (Approx. for maintenance and repair)

Training

All Department UAS operators are licensed by the Federal Aviation Administration for UAS Operation. In addition, each operator must attend monthly ongoing training.

Legal and Procedural Rules

Use is established under PDM 613 – UAS Operations, and the FAA Regulation 14 CFR Part 107. It is the policy of the CVPD to utilize UAS only for official law enforcement purposes, and in a manner that respects the privacy of our community, pursuant to the City’s privacy and technology policies, along with State and Federal Law.

Operational Use for 2023-2024

From January 1, 2023, through January 11, 2024, the following UAS flights occurred:

- Approximately 4,685 flights for Drone as First Responder (DFR)
- Approximately 538 field tactical deployments. Field tactical deployments include crime scene mapping, looking for missing person or dangerous subjects. Additionally, UAS team supported SWAT on (4) missions.

ATTACHMENT A CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

2022-2023 UAS Acquisitions

1 DJI Matrice 350 RTK Drone. Paid through Chula Vista Police Foundation.

CVPD anticipates 4 additional drone purchases in 2024 for the already approved drone fleet. This will allow CVPD to launch (2) UAS per launch site per our FAA Certificate of Authorization (2022-WSA-11425-COA). Additionally, this will allow CVPD to supplement UAS that are taken out of service for maintenance. The cost and models of drone purchases are currently unknown. However, drone purchases will be up to \$50,000 and funding will come from the Chula Vista Police Foundation or from Measure A funds. Any new acquisitions of drones will be used as previously approved by City Council and pursuant to the already established Military Equipment Use Policy and AB 481.

UAS Personnel Costs

- The CVPD DFR program includes full-time positions for (1) police lieutenant, (1) police sergeant, (2) police officer pilots, and contract staffing (Flying Lion).
- The DFR program is funded through Measure A with an annual cost of \$1.5 million.
- In March 2023, the DFR program expanded to nighttime flying with an additional cost of \$206,877. Funding is also approved through Measure A.

2. **Robot:** An unmanned ground-based machine along with the associated equipment necessary to control it remotely.

Description and capabilities:

a. **ROBOTEX AVATAR III**, the Robotex Avatar III is a heavy-duty robot. It has stair climbing ability and an arm capable of remote manipulation. The Avatar III also offers multiple communications options, a chassis and manipulator that allow for accessories and tool combinations. The robot is primarily deployed as a tool for the SWAT Team; however, it can be used for other authorized patrol functions. It operates as a de-escalation tool in a variety of capacities (see Purpose section below).

Purpose

To be deployed when its use would assist officers or incident commanders with the following situations, which include but are not limited to:

- Remotely gain visual/audio data
- Deliver phone during hostage/barricaded subject negotiations
- Open doors
- Disrupt suspicious/dangerous packages
- Training/authorized public exhibition

**ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)**

Authorized Use

Only sworn personnel who have been trained on the robot’s function, use, and capabilities shall be permitted to operate the robot.

Expected Lifespan

Robot and arm attachment, 8-10 years.

Quantity, Cost, and Fiscal Impact

Unmanned Remotely Piloted, Powered Aerial or Ground Vehicles			
Robots			
Equipment Name and Model / Manufacturer	Quantity	Initial Cost (Per Unit)	Fiscal Impact (FY 23 & 24) (Approx. for maintenance and repair)
ROBOTEX AVATAR III 	1	\$40,793.56	\$0

Training

All robot operators must complete in-house training in the use, function, and deployment of the robot by trained robot operators.

Legal and Procedural Rules

The use of the robot is for official law enforcement purposes only, and in a manner that respects the privacy of our community, pursuant to the City’s privacy and technology policies, along with State and Federal Law.

Operational Use for 2023

The Robotex Avatar robot was not used during this reporting period.

B. Command and Control Vehicles

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

- 1. Mobile Command Post (CP):** A mobile office that provides shelter, police equipment, access to Police Department computer systems, and restroom facilities on extended events.

Description and capabilities:

a. **Freightliner M2-106**, The CP can also be utilized for SWAT/CNT and other critical incidents, preplanned large events, searching for missing persons, natural disasters, and community events.

Purpose

To be used based on the specific circumstances of a given critical incident, large event, natural disaster, or community event that is taking place.

Authorized Use

The CP shall be operated by officers trained in their deployment and in a manner consistent with State Law regarding the operation of motor vehicles. Furthermore, only officers who have completed the California Class B Commercial driver training provided by the Department and properly licensed will be permitted to drive the CP.

Expected Lifespan

20-year lifespan on chassis and 10-year warranty on vehicle structure.

Quantity, Cost, and Fiscal Impact

Command and Control Vehicles			
Equipment Name and Model / Manufacturer	Quantity	Initial Cost (Per Unit)	Fiscal Impact (FY 23 & 24) (Approx. for maintenance and repair)
Freightliner M2-106 Mobile Command Post 	1	\$778,000 Regional Asset Funded through UASI grant	\$2000

Training

All drivers shall receive training in the safe handling of the vehicle on a closed training course. Once the driver has shown competence in the vehicle handling, the driver will operate the vehicle throughout

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

the city with an experienced driver. Drivers shall also undergo California Department of Motor Vehicles commercial vehicle testing. In addition, each driver shall attend bi-yearly training as authorized by the Department.

Legal and Procedural Rules

It is the policy of Department to use the CP only for official law enforcement purposes, and in accordance with State law regarding the operation of motor vehicles.

- 2. SWAT Equipment Truck:** A mobile storage unit/preparation area that provides SWAT members access to equipment and uniforms during critical events.

Description and capabilities:

- a. **Freightliner M2 106 chassis (custom build)**, The SWAT equipment truck is used as a mobile storage unit and is deployed to critical incidents to provide SWAT team members rapid access to necessary equipment.

Purpose

To be used based on the specific circumstances of a given critical incident, large event, natural disaster, or community event that is taking place.

Authorized use

The equipment truck shall be used by officers trained in its deployment and in a manner consistent with Department training. Officers with a valid California Class C license may operate the equipment truck.

Expected lifespan

The Equipment Truck, 20-year lifespan on chassis, lifetime warranty on vehicle structure. Upgrades needed after 12 years of purchase to maintain IT systems.

///
///
///

**ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)**

Quantity, Cost, and Fiscal Impact

Command and Control Vehicles			
Equipment Name and Model / Manufacturer	Quantity	Initial Cost (Per Unit)	Fiscal Impact (FY 23 & 24) (Approx. for maintenance and repair)
Freightliner M2 106 chassis (custom build) SWAT equipment truck 	1	\$406,286.24 Obtained through asset seizure funds	\$7008

Training

Drivers shall receive training in the safe handling of the vehicle by a Department-qualified driver. Once the driver has shown competence in vehicle handling, the driver may operate the vehicle for authorized use.

Legal and Procedural Rules

The equipment truck shall be deployed for authorized use and operated in accordance with California State Law regarding the operation of motor vehicles.

Operational Use for 2023

- The Mobile Command Vehicle was used 14 times during this reporting period. 12 uses for DUI checkpoints and 2 uses for special event support.
- The SWAT Command Vehicle was used 4 times during this reporting period. 2 uses for SWAT callouts, 1 use for San Diego high-risk warrant service, and 1 use for Lemon Grove barricaded felony suspect.

C. Armored Personnel Carriers

1. **Armored vehicle:** Commercially produced wheeled armored vehicle utilized for law enforcement purposes.

///
///
///

**ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)**

Description and capabilities:

a. **2011 Lenco BEARCAT G2**, The Lenco Bearcat, G2, is an armored vehicle that seats 10-12 personnel with an open floor plan that allows for safe rescue of injured citizens and officers. It can stop various projectiles, which provides greater safety to citizens and officers beyond the protection level of shield and personal body armor.

Purpose

To be used in response to critical incidents to enhance officer and community safety, improve scene containment and stabilization, and assist in resolving critical incidents. The vehicle may also be used during formal training or community demonstrations with approval from the Watch Commander, SWAT Commander, or a SWAT Team Leader.

Authorized Use

The use of armored vehicles shall only be authorized by a sworn supervisor or manager based on the specific circumstances of a given critical incident. Officers may deploy the armored vehicle during exigent circumstances, such as officer/citizen rescues, without prior approval. If deployed under exigent circumstances, a supervisor shall be notified as soon as practical. Armored vehicles shall only be used by officers trained in their deployment and in a manner consistent with Department training.

Expected lifespan

Lenco Bearcat model G2 – 25 years.

Quantity, Cost, and Fiscal Impact

Armored Personnel Carriers			
Equipment Name and Model / Manufacturer	Quantity	Initial Cost (Per Unit)	Fiscal Impact (FY 23 & 24) (Approx. for maintenance and repair)
2011 Lenco BEARCAT G2 	1	\$315,518.65 Obtained through a Homeland Security Grant	\$5000

Training

The driver shall receive training in the safe handling of the vehicle by a Department-qualified driver. Once the driver has shown competence in vehicle handling, the driver may operate the vehicle for authorized use.

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

Legal and Procedural Rules

All drivers/operators shall be sworn personnel and possess a valid class C driver's license. The vehicle shall be operated in accordance with State Law regarding the operation of motor vehicles.

Operational Use for 2023

- The armored personnel vehicle was used 7 times during this reporting period. 2 uses for SWAT responses in the City of Chula Vista, 1 use for a high-risk warrant service in the City of San Diego, 1 use for a barricaded felony suspect in the City of Lemon Grove, 1 use for assisting the San Diego Police Department SWAT serving a high risk warrant service assist in the City of San Diego, 1 use for Patrol assist with an armed/barricaded DV suspect, and 1 use for special event support.

D. Specialty Impact Munition Weapons (SIM) and Associated Munitions

1. 40 MM Launchers and Munitions: 40 MM launchers are utilized by SWAT personnel as a less lethal tool to launch less lethal impact and chemical agent rounds.

Description and capabilities:

- a. **DEFENSE TECHNOLOGY, 40 MM TACTICAL 4-SHOT LAUNCHER #1440**, the 40 MM Tactical 4-Shot Launcher is low-profile and lightweight, providing multi-shot capability in an easy to carry launcher. It features an adjustable Picatinny mounted front grip, and a unique direct-drive system to advance the magazine cylinder. It will launch a 40MM less lethal round up to 131 feet and is only authorized to be used by trained SWAT personnel.
- b. **PENN ARMS, 40 MM SINGLE SHOT LAUNCHER #GL1-40 (also known as #GS0490)**, the 40 MM Single Launcher is a tactical single shot launcher. It will fire standard 40 MM less lethal ammunition, up to 4.8 inches in cartridge length. It will launch a 40 MM less lethal round up to 131 feet and is only authorized to be used by trained SWAT personnel.
- c. **DEFENSE TECHNOLOGY, 40 MM LMT TACTICAL SINGLE LAUNCHER #1426**, the 40 MM LMT Tactical Single Launcher is a tactical single shot launcher. It will fire standard 40 MM less lethal ammunition, up to 4.8 inches in cartridge length. It will launch a 40 MM less lethal round up to 131 feet and is only authorized to be used by trained SWAT personnel.
- d. **DEFENSE TECHNOLOGY, FERRET 40 MM LIQUID BARRICADE PENETRATOR MUNITION #2262**, a less lethal 40 MM round used to penetrate barriers, such as windows, hollow core doors, wallboard, and thin plywood. Upon impacting the barrier, the nose cone ruptures and instantaneously delivers a small chemical payload inside of a structure or vehicle. In a tactical deployment situation, the 40 MM Ferret is primarily used to dislodge barricaded subjects from confined areas. Its purpose is to minimize the risks to all parties through temporary discomfort, pain compliance, and/or incapacitation of potentially violent or dangerous subjects.

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

- e. **DEFENSE TECHNOLOGY, EXACT IMPACT 40 MM STANDARD RANGE SPONGE ROUND #6325**, the Exact Impact 40 mm sponge round is a point-of-aim, point-of-impact direct-fire round. It is a lightweight, high-speed projectile consisting of a plastic body and sponge nose that is spin stabilized via the incorporated rifling collar and the 40 mm launcher's rifled barrel. Its purpose is to minimize the risks to all parties through temporary discomfort, pain compliance, and/or incapacitation of potentially violent or dangerous subjects.

Purpose

To limit the escalation of conflict where employment of lethal force is prohibited or undesirable.

Authorized Use

Situations for use of the less lethal weapon systems may include, but are not limited to:

- Self-destructive, dangerous and/or combative individuals.
- Riot/crowd control and civil unrest incidents.
- Circumstances where a tactical advantage can be obtained.
- Potentially vicious animals.
- Training exercises or approved public exhibitions.

Expected lifespan

- a. Defense Technology #1440 - 15 years
- b. Penn Arms #GL1-40 - No lifespan indicated by manufacturer
- c. Defense Technology Model 2262 Liquid Barricade Penetrator - 5 years

///

<p>DEFENSE TECHNOLOGY, EXACT IMPACT 40 MM STANDARD RANGE SPONGE ROUND #6325</p> 	0	\$23.00	<p><i>Request to purchase qty 80 to return this item to inventory @ \$23.00 each = \$1,840.00</i></p>
--	---	---------	---

Training

Sworn members utilizing 40 MM less lethal chemical agents or impact rounds are trained in their use by POST certified less lethal or chemical agent instructors. SWAT personnel receive additional training annually. SWAT operators who utilize these munitions have successfully completed a POST approved chemical agent school, SWAT academy and/or have been trained in-house by POST certified chemical agent instructors.

Legal and Procedural Rules

Use is established under the CVPD PDM 308 - Control Devices and Techniques policy and PDM 300 - Use of Force policy. It is the policy of the CVPD to only utilize the less lethal Specialty Impact Munitions (SIMS) and associated munitions for official law enforcement purposes, and pursuant to State and Federal Law, including those regarding the use of force.

Operational Use for 2023

- The Penn Arms 40mm launcher was used 1 time during this reporting period. This involved a SWAT callout for a barricaded suspect wanted for multiple felony charges.
- The Defense Technology 40mm #2262 ferret round was used 9 times during this reporting period. This involved a SWAT callout for a barricaded suspect wanted for multiple felony charges.
- 24 Defense Technology 40mm #2262 ferret rounds were removed from operational service due to expiration. They were retained and will be utilized for training purposes only.

Acquisitions for 2024

- Request to purchase Defense Technology 40 mm LMT Tactical Single Shot Launchers #1426 to replace existing aging 40mm launchers. Quantity 5 @ \$1,441.77 each = \$7,208.85
- Request to purchase Defense Technology Ferret 40 mm Liquid Barricade Penetrator Munition #2262 to resupply depleted inventory. Quantity 100 @ \$24.60 each = \$2,460.
- Request to purchase Defense Technology Exact Impact 40 mm Standard Range Sponge Round #6325 to return this item to inventory. Quantity 80 @ \$23.00 each = \$1,840.00

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

2. **SIM barrel conversion kits and SIM training projectiles:** A designated barrel or bolt used in a standard firearm or handgun that when fired only discharges specially designed SIM paint marking rounds. The conversion kits do not permit the weapon to fire standard ammunition. These are non-operational rounds and non-operational weapons systems. They are used for training purposes only.

Description and capabilities:

- a. **FORCE ON FORCE 5.56MM MARKER BOLT ASSEMBLIES**, the bolt assembly includes a bolt carrier group that converts the AR-15/M4 rifle into effective weapons designed to fire force on force 5.56mm paint marker rounds and prevent the firing of lethal ammunition. These bolts are used for training only.
- b. **SIMUNITION SIG SAUER P226 CONVERSION KIT**, the Simunition Conversion Kit includes a barrel and ramp that converts the Sig Sauer P226 Pistol into an effective training weapon designed to fire force on force 9mm marker rounds and prevent the firing of lethal ammunition. These conversion kits are used for training only.
- c. **SIMUNITION SIG SAUER P320 CONVERSION KIT**, the Simunition Conversion Kit includes a barrel and ramp that converts the Sig Sauer P320 Pistol into an effective training weapon designed to fire force on force 9mm marker rounds and prevent the firing of lethal ammunition. These conversion kits are used for training only.
- d. **SIMUNITION SMITH & WESSON M&P CONVERSION KIT**, the Simunition Conversion Kit includes a barrel and ramp that converts the Smith & Wesson M&P Pistol into an effective training weapon designed to fire force on force 9mm marker rounds and prevent the firing of lethal ammunition. These conversion kits are used for training only.
- e. **FORCE ON FORCE 5.56 MM PAINT MARKING ROUNDS**, non-operational munition for training purposes only. Paint Marking round designed to be used with the SIM conversion kits during training exercises. These rounds are used for training only.
- f. **FORCE ON FORCE 9 MM PAINT MARKING ROUNDS**, non-operational munition for training purposes only. Paint Marking round designed to be used with the SIM conversion kits during training exercises. These rounds are used for training only.

Purpose

These systems and munitions provide for realistic close quarters firearms training while allowing the shooter to visually assess shot placement and accuracy in force-on-force training scenarios.

Authorized Use

Rifle caliber SIMs (5.56mm) are used exclusively by SWAT for training purposes only. Pistol caliber SIMs (9mm) are used by SWAT and other sworn personnel for in-service training.

**ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)**

Expected lifespan

5.56mm bolt assembly – Frequency of use. 5-year limited warranty
 5.56mm SIM rounds – At least 5 years.
 9mm barrel assembly – Frequency of use. 5-year limited warranty
 9mm SIM rounds – At least 5 years.

Quantity, Cost, and Fiscal Impact

Training

Sworn personnel are given extensive firearms handling courses and weapons safety instruction to include the use of SIMs for training purposes.

Legal and Procedural Rules

These systems are for training purposes only. Users will wear protective gear or clothing and only operate the equipment in a controlled training environment and when safe to do so.

Operational Use for 2023

- 6 unused Force on Force 5.56mm Marker Bolt Assemblies were located in a department range storage area bringing the current total to 26.
- This equipment was only used for training purposes during this reporting period.

Acquisitions for 2024

- Request to purchase Force on Force 5.56mm Marker Bolt Assemblies to further accommodate department mandatory firearms and tactical training. Quantity 15 @ 304.00 each = \$4,560.00.

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

- Request to purchase Simunition Sig Sauer P320 Conversion Kit to further accommodate department mandatory firearms and tactical training. Quantity 24 @ 678.53 each = \$16,284.72.
- Request to purchase Simunition Smith & Wesson M&P Conversion Kit to further accommodate department mandatory firearms and tactical training. Quantity 1 @ 630.50 each = \$630.50.
- Request to purchase Force on Force 5.56mm Marking Rounds to further accommodate department mandatory firearms and tactical training. Quantity 30 @ 384.00 each = \$11,520.00.
- Request to purchase Force on Force 9mm Marking Rounds to further accommodate department mandatory firearms and tactical training. Quantity 10 @ 384.00 each = \$3,840.00.

E. Pepperball Launchers and Associated Projectiles:

1. **Pepperball launcher and projectiles:** A device that discharges projectiles containing pepper powder and glass breaking projectiles.

Description and capabilities:

a. **PepperBall VKS CARBINE**, the Variable Kinetic System (VKS) is a compressed-air powered launcher designed to fire non-lethal PepperBall projectiles. The PepperBall VKS Carbine features a dual feed system that offers the ability to quickly switch between hopper mode for optimum versatility.

b. **PepperBall LIVE-X PROJECTILE**, the Live-X Projectile contains a concentrated amount of PAVA pepper powder. One round of LIVE-X contains the equivalent to 10 standard PepperBall rounds. Discharged from a PepperBall Launcher, the projectile has a velocity of 280-350 FPS. The projectile has a direct impact of 60ft and an area of saturation of 150+ft. The projectile contains 5% PAVA powder.

c. **PepperBall GLASS BREAKER PROJECTILE**, a solid polymer projectile used for breaking out residential windows and side-glass of automobiles. Not for use on humans. Discharged from a PepperBall launcher, the projectile has a velocity of 280-350 FPS. The projectile has a direct impact of 60ft and an area of saturation of 150+ft.

Purpose

To limit the escalation of conflict where employment of lethal force is prohibited or undesirable. Situations for use of the less lethal weapon systems may include, but are not limited to:

- Self-destructive, dangerous and/or combative individuals.
- Riot/crowd control and civil unrest incidents.
- Circumstances where a tactical advantage can be obtained.
- Potentially vicious animals.
- Training exercises or approved demonstrations.

**ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)**

Authorized Use

Only those officers who have been trained in the use of PepperBall launchers are authorized to use the PepperBall launchers.

Expected lifespan

PepperBall VKS Carbine- 20 years
 PepperBall Live-X Projectile- 3 years
 PepperBall Glass Breaker Projectile- 3 years

Quantity, Cost, and Fiscal Impact

PepperBall Launchers and Associated Projectiles			
Equipment Name and Model / Manufacturer	Quantity	Initial Cost (Per Unit)	Fiscal Impact (FY 23 & 24) (Approx. for maintenance and repair)
PepperBall VKS CARBINE 	11	\$849	\$50 (per unit)
PepperBall LIVE-X PROJECTILE 	2,850	2.99 (per projectile)	\$0
PepperBall GLASS BREAKER PROJECTILE 	50 <i>*This number was inadvertently reported last year as being 500, but should correctly reflect 50.</i>	\$2.43 (per projectile)	\$0

ATTACHMENT A CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

Training

Sworn members utilizing PepperBall launchers and projectiles are trained in their use by POST certified less lethal and chemical agent instructors.

Hiring, training, and staging of equipment by officers is a cause for the projectile inventory being in a state of flux. This is the primary cause for the inventory miscalculation from previous reporting. The reported number in 2022 was approximately 1,000 projectiles and is currently 3,105.

Legal and Procedural Rules

Use is established under PDM – 308 Control Devices and Techniques policy and PDM 300 Use of Force. It is the policy of the CVPD to utilize PepperBall only for official law enforcement purposes, and pursuant to State and Federal law, including those regarding the use of force.

Operational Use for 2023

- The PepperBall equipment was deployed by officers 9 times during this reporting period.

F. Less Lethal Shotguns and related munitions

1. Less Lethal Shotgun and Munitions: Less Lethal Shotgun is used to deploy the less lethal 12-gauge Super-Sock Beanbag Round. The shotgun is designed as a less lethal tool and is painted bright orange to distinguish itself from other weapons systems.

Description and capabilities:

- a. **REMINGTON 870 LESS LETHAL SHOTGUN**, the Remington 870 Less Lethal Shotgun is used to deploy the less lethal 12-gauge Super Sock Beanbag Round up to a distance of 75 feet. The range of the weapon system helps to maintain space between officers and a suspect, reducing the immediacy of the threat which is a principle of De-escalation.
- b. **12-GAUGE CTS SUPER SOCK BEANBAG ROUND**, a less lethal 2.4 inch 12-gauge shotgun round firing a ballistic fiber bag filled with 40 grams of lead shot at a velocity of 270-290 FPS. CTS Super-Sock rounds are discharged from a dedicated 12-gauge shotgun that is distinguishable by an orange butt stock and foregrip. This round provides accurate and effective performance when fired from the approved distance of not fewer than five (5) feet. The maximum effective range of this munition is up to 75 feet from the target. The Model 2581 Super-Sock is in its deployed state immediately upon exiting the barrel. It does not require a minimum range to “unfold” or “stabilize.” The Super-Sock is an aerodynamic projectile. However, accuracy is relative to the shotgun, barrel length, environmental conditions, and the operator. The Super-Sock is very accurate. However, effectiveness depends on many variables, such as distance, clothing, stature, weather, and the point where the projectile impacts.

**ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)**

Purpose

To limit the escalation of conflict where employment of lethal force is prohibited or undesirable.

Authorized Use

Situations for use of the less lethal weapons systems may include, but are not limited to:

- Self-destructive, dangerous and/or combative individuals.
- Riot/crowd control and civil unrest.
- Circumstances where a tactical advantage can be obtained.
- Potentially vicious animals.
- Training exercises or approved demonstrations.

Expected lifespan

Remington 870 Less Lethal Shotgun - 25 years.
Super Sock Round - No listed expiration date.

Quantity, Cost, and Fiscal Impact

Less Lethal Shotguns and related munitions			
Equipment Name and Model / Manufacturer	Quantity	Initial Cost (Per Unit)	Fiscal Impact (FY 23 & 24) (Approx. for maintenance and repair)
REMINGTON 870 LESS LETHAL SHOTGUN 	71	\$481.38	\$50 (per unit)
12-GAUGE CTS SUPER SOCK BEANBAG ROUND 	435	\$5.00 (per round)	\$0

Training

All officers are trained in the 12-gauge less lethal shotgun as a less lethal option by Department training personnel.

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

Hiring and training of officers is a cause for the projectile inventory being in a state of flux. This is the primary cause for the inventory miscalculation from previous reporting. The reported number of projectiles in 2022 was approximately 350 and is currently 487.

Legal and Procedural Rules

Use is established under PDM 308 - Control Devices and Techniques and PDM 300 - Use of Force. It is the policy of the CVPD to only utilize the less lethal shotgun for official law enforcement purposes, and pursuant to State and Federal Law, including those regarding the use of force.

Operational Use for 2023

- The Less Lethal Beanbag Shotgun was deployed 8 times and the Super Sock Beanbag round 19 times during this reporting period.

G. Chemical Agents (non-munition)

1. **Chemical Agent Canisters:** Canisters that contain chemical agents that are released when deployed.

Description and capabilities:

- a. **DEFENSE TECHNOLOGY, FLAMELESS TRI-CHAMBER CS GRENADE #1032,** The design of the Tri-Chamber Flameless CS Grenade allows the contents to burn within an internal can and disperse the agent safely with reduced risk of fire. The grenade is designed primarily for indoor tactical situations to detect and/or dislodge a barricaded subject. This grenade will deliver approximately .70 oz. of agent during its 20-25 second burn time. The Tri-Chamber Flameless Grenade can be used in crowd control as well as tactical deployment situations by law enforcement and corrections but was designed with the barricade situation in mind. Its applications in tactical situations are primarily to detect and/or dislodge barricaded subjects. The purpose of the Tri-Chamber Flameless Grenade is to minimize the risks to all parties through pain compliance, temporary discomfort, and/or incapacitation of potentially violent or dangerous subjects. The Tri-Chamber Flameless Grenade provides the option of delivering a pyrotechnic chemical device indoors, maximizing the chemical's effectiveness via heat and vaporization, while minimizing or negating the chance of fire to a structure. The Tri-Chamber Flameless Grenade is NOT to be launched utilizing a launching cup.
- b. **DEFENSE TECHNOLOGY, SPEDE-HEAT CONTINUOUS DISCHARGE CS GRENADE #1072,** the Spede-Heat™ CS Grenade is a high volume, continuous burn. It expels its payload in approximately 20-40 seconds. The payload is discharged through four gas ports on top of the canister, three on the side and one on the bottom. This launchable grenade is 6.12 in. by 2.62 in. and holds approximately 2.9 oz. of active agent.
- c. **DEFENSE TECHNOLOGY, RIOT CONTROL CONTINUOUS DISCHARGE CS GRENADE #1082,** the Riot Control CS Grenade is designed specifically for outdoor use in crowd

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

control situations with a high-volume continuous burn that expels its payload in approximately 20-40 seconds through four gas ports located on the top of the canister. This grenade can be used to conceal tactical movement or to route a crowd. The volume of smoke and agent is vast and obtrusive. This launchable grenade is 6.0 in. by 2.35 in. and holds approximately 2.7 oz. of active agent.

- d. **DEFENSE TECHNOLOGY, TRIPLE-CHASER SEPARATING CS CANISTER #1026**, the Triple-Chaser CS consists of three separate canisters pressed together with separating charges between each. When deployed, the canisters separate and land approximately 20 feet apart allowing increased area coverage in a short period of time. This grenade can be hand thrown or launched from a fired delivery system. The grenade is 6.5 in. by 2.7 in. and holds an approximately 3.2 oz. of active agent payload. It has an approximate burn time of 20-30 seconds.
- e. **COMBINED TACTICAL SYSTEMS (CTS) BAFFLED CS CANISTER GRENADE #5230B**, the design of the CTS Baffled CS Canister Grenade allows the contents to burn and disperse a very high volume of CS irritant agent safely with a very minimal risk of fire. The grenade is designed primarily for indoor tactical situations to detect and/or dislodge a barricaded subject. This grenade expels its payload through four emission ports in approximately 20-40 seconds.

Purpose

To limit the escalation of conflict where employment of lethal force is prohibited or undesirable. Situations for use of the less lethal weapon systems may include, but are not limited to:

- Self-destructive, dangerous and/or combative individuals.
- Riot/crowd control and civil unrest incidents.
- Barricaded subjects
- Circumstances where a tactical advantage can be obtained.
- Potentially vicious animals.
- Training exercises or approved public exhibitions.

Authorized Use

Only officers who have received POST certification in the use of chemical agents are authorized to use chemical agents.

Expected lifespan

5 years from manufacturing date.

ATTACHMENT A CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

Training

Sworn members utilizing chemical agent canisters are certified by POST less lethal and chemical agent instructors.

Legal and Procedural Rules

Use is established under the PDM 308.6 – Tear Gas Guidelines and PDM 300 – Use of Force. It is the policy of the CVPD to utilize chemical agents only for official law enforcement purposes, and pursuant to State and Federal law, including those regarding the use of force.

Operational Use for 2023

- The Defense Technology Flameless Tri-Chamber #1032 was used 6 times during SWAT callouts during this reporting period.
- The Defense Technology Flameless Tri-Chamber #1032 was used 4 times and the Defense Technologies Riot Control #1082 was used 3 times during training only.
- 23 Defense Technologies Flameless Tri-Chamber #1032 and 64 Defense Technologies Riot Control #1082 were removed from operational service due to expiration dates. These were retained and will be utilized for training purposes only.

Acquisitions for 2024

- Request to purchase Defense Technology Spede-Heat #1072 to resupply depleted inventory, quantity 50 @ \$32.30 each = \$1615.00.
- Request to purchase Defense Technologies Riot Control #1082 to add to existing inventory, quantity 50 @ \$32.30 each = \$1635.00.
- Request to purchase Combined Tactical Systems (CTS) #5230B to add this item to inventory, quantity 50 @ \$47.52 each = \$2,376.00.

H. Diversionary Devices

1. **Diversionary Devices “Flashbangs”:** Diversionary/distraction devices are ideal for distracting dangerous suspects during hostage rescue, barricaded subjects, room entry or other high-risk incidents.

Description and capabilities:

- a. **COMBINED TACTICAL SYSTEMS (CTS), 7290M DIVERSIONARY DEVICE,** the CTS 7290M is a serialized steel bodied single use non-bursting canister noise flash diversionary device. The weight is 430 grams. The light output is 2 million candela minimum. The sound output is 165-175 average decibels. The device produces a thunderous bang with an intense bright light. Ideal for distracting dangerous suspects during hostage rescue, barricaded subjects, room entry or other high-risk incidents.

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

- b. **COMBINED TACTICAL SYSTEMS (CTS) 7290MT TRAINING DIVERSIONARY DEVICE**, the CTS training devices have a re-loadable fuse for repeated training use. These training fuses produce lowered sound (120 decibels) and light output than the CTS 7290M diversionary device.
- c. **LIBERTY DYNAMIC ELECTRONIC DIVERSIONARY DEVICE**, the Liberty Dynamic Electronic Device has a reloadable fuse for repeated deployment. The digital “smart” fuse can be programed to desired delay length, possesses LED indicator lights which provide device condition feedback, and will render itself safe within 60 seconds if there is a failure upon deployment. The sound output is 184 average decibels. During transport and storage, the fuse and device body are kept separate increasing officer safety.
- d. **LIBERTY DYNAMIC ELECTRONIC DIVERSIONARY TRAINING DEVICE**, the Liberty Dynamic Electronic Training Device has a reloadable fuse for repeated training use. These training fuses have similar deployment mechanics as the original devices with a significantly reduced cost.

Purpose

To produce atmospheric overpressure, a loud report, heat, and brilliant light that may cause short-term physiological and psychological sensory effects to suspects, providing a tactical advantage during high-risk incidents.

Authorized Use

By SWAT members who have been trained by a qualified instructor in the use and deployment of the device. The devices may be used for any of the following circumstances:

CTS 7290M

- In hostage and barricaded subject situations
- In high-risk warrant (search/arrest) services where there may be extreme hazards to officers and/or the public
- During other high-risk situations where their use would enhance officer safety
- During controlled training exercises.

CTS 7290MT

- During controlled training exercises.

LIBERTY DYNAMIC ELECTRONIC DIVERSIONARY DEVICE

- In hostage and barricaded subject situations
- In high-risk warrant (search/arrest) services where there may be extreme hazards to officers and/or the public
- During other high-risk situations where their use would enhance officer safety
- During controlled training exercises.

**ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)**

LIBERTY DYNAMIC ELECTRONIC DIVERSIONARY TRAINING DEVICE

- During controlled training exercises

Expected lifespan

All CTS devices have a 5-year manufacturer warranty from their shipment date. Devices that have passed the manufacturer warranty date should not be used except in a training environment.

All Liberty Dynamic Electronic Devices have a 2-year manufacturer warranty from their shipment date. They have unlimited use and only require replacement if physical or electronic damage occurs.

Quantity, Cost, and Fiscal Impact

Diversionsary Devices "Flashbangs"			
Equipment Name and Model / Manufacturer	Quantity	Initial Cost (Per Unit)	Fiscal Impact (FY 23 & 24) (Approx. for maintenance and repair)
COMBINED TACTICAL SYSTEMS (CTS), 7290M DIVERSIONARY DEVICE 	80	\$40.50	\$0
COMBINED TACTICAL SYSTEMS (CTS) 7290MT TRAINING DIVERSIONARY DEVICE 	10 (device bodies) 57 (training fuses)	\$44.65 (device bodies) \$14.65 (training fuses)	\$0
LIBERTY DYNAMIC ELECTRONIC DIVERSIONARY DEVICE 	24 (device bodies) 96 (fuses)	\$604.17	<i>Request to purchase as an initial package qty of 24 as eventual replacement for current 7290M and 7290MT @ \$604.17 = \$14,500.00.</i>

---	--	---	---

Training

Prior to use, SWAT team members must attend a POST certified SWAT academy or equivalent training. SWAT team members who have not yet completed an academy may use diversionary devices if they have been trained by a CVPD SWAT team member that has completed a diversionary device instructor school. The SWAT team conducts diversionary device training annually.

Legal and Procedural Rules

Sworn personnel shall only utilize diversionary devices for official law enforcement purposes, and pursuant to State and Federal law regarding the use of force.

Operational Use for 2023

- 21 CTS 7290M devices were used during 2 SWAT callouts and 1 SWAT high-risk warrant service.
- 14 CTS 7290M devices were used for training and demonstration purposes only.
- CTS 7290MT were only used for training purposes during this reporting period. 2 CTS 7290MT devices were incidentally acquired during 2023 increasing the number from 8 to 10. 1 device was included within a previous order of training fuses from CTS and 1 was found at a Law Enforcement training venue.

Acquisitions for 2024

- Request to purchase Liberty Dynamic Electronic Diversionary Devices and Liberty Dynamic Electronic Diversionary Training Devices when current CTS 7290M and CTS 7290MT device inventory becomes exhausted and can be phased out of operational service. Initial purchase would include 24 devices, 24 training devices, 96 fuses, and 108 training fuses. Quantity 24 @ 604.17 = \$14,500.00.

I. Specialized Firearms Less than .50 Caliber

1. **Assault Rifle:** Semi-automatic long-rifle that increases precision and accuracy.

**ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)**

Description and capabilities:

- a. **SMITH AND WESSON M&P-10 RIFLE (NOT STANDARD ISSUE)**, the M&P-10 is a gas operated semi-automatic rifle with an 18-inch barrel that is engineered with a 1/10 twist and fires .308 caliber ammunition.
- b. **SMITH & WESSON MP15X RIFLE (DEPARTMENT STANDARD ISSUE)**, the MP15X is a gas operated semi-automatic rifle with a 16-inch barrel that is engineered with a 1/9 twist and fires 5.56/.223 caliber ammunition.
- c. **COLT M4 LE6946CQB RIFLE (CURRENT SWAT STANDARD ISSUE)**, the M4 LE6946CQB is a gas operated semi-automatic rifle with a 10.3-inch barrel that is engineered with a 1/7 twist and fires 5.56/.223 caliber ammunition.
- d. **DANIEL DEFENSE DDM4 MK18 RIFLE (FUTURE SWAT STANDARD ISSUE)**, the DDM4 MK18 is a gas operated semi-automatic rifle with a 10.3-inch barrel that is engineered with a 1/7 twist and fires 5.56/.223 caliber ammunition.

Purpose:

To be used as precision weapons to address threats with more accuracy and/or greater distance than a handgun, if present and feasible.

Authorized Use:

Unless exigent circumstances exist, only CVPD sworn members who have completed and maintained department training standards may deploy the M&P-10, MP15X, M4 LE6946CQB, and/or DDM4 MK18 rifles.

Expected Lifespan:

The projected rifle lifespan is determined by frequency of use. However, Smith and Wesson, Colt, and Daniel Defense all provide a limited lifetime warranty. Based on current use; the estimated lifespan for the M&P-10 is 50 years, for the MP15X 20 years, and for the DDM4 10 years.

COLT M4 LE6946CQB RIFLE 5.56 CAL (SWAT TRAINING ONLY) 	2	\$1,500	\$50.00
DANIEL DEFENSE DDM4 MK18 RIFLE 5.56 CAL (SWAT STANDARD ISSUE) 	24	\$2,083	\$50.00

Training:

Sworn department members are required to complete annual training and qualifications to operate department rifles.

ATTACHMENT A
CVPD MILITARY EQUIPMENT INVENTORY (2023-2024)

Legal and Procedural Rules:

Use is established under PDM 300 - Use of Force. It is the policy of the CVPD to only utilize the rifle for official law enforcement purposes, and pursuant to State and Federal law regarding the use of force.

Operational Use for 2023

22 Colt M4 rifles were removed from field operations and disassembled. 2 Colt M4 rifles were removed from field operations and retained for SWAT training purposes only.

SWAT

SWAT is a budgeted assignment and team positions are considered a collateral duty (part-time assignment).

Total CVPD SWAT FY 23/24 budget = \$200,299.

Training:

Sworn department members are required to complete annual training and qualifications to operate department rifles.

Legal and Procedural Rules:

Use is established under PDM 300 - Use of Force. It is the policy of the CVPD to only utilize the rifle for official law enforcement purposes, and pursuant to State and Federal law regarding the use of force.
