We worked all our lives to be able to have a home in the area and you are destroying our lifestyle with all the congestion that the church brings to our area and now you want to put 19 more units in. There are 3 schools within a block of this site, plus all the events the church, right next to it, sponsors, in addition to it's services. This has grown expedientially over the years with the church leasing out their property. Especially the church, it rents out their parking lot, located right within your proposed area for food distribution. The cars start lining up the night before. They park right in front our homes, causing all the dogs in the neighborhood to bark all hours of the night and carrying on, watching tv, playing radios in their cars and visiting like they are having a party. Some line up along the sides of our houses the night before butted up against one another in groups and someone comes and picks the lot of them up and brings them back the next morning. Then with the three school's traffic, drop off and pick up, it's like a circus and very dangerous for the kids and pedestrians and other people living in and around this area that are walking to and from school and just trying to live our lives. Getting out of our driveways at times is completely out of the question. All the schools converge on to Hilltop, right where you are proposing this new construction. You are proposing all this additional unsafe congestion? You're ruining our neighborhood! These units proposed are even more than the 19 units because they have advertised they will include granny flats; multi generational conditions in each unit! Surely we have some rights to our quality of life!!
