Chula Vista subcommittee may soon weigh in on suspending officials facing criminal charges

The Charter Review Commission explored the topic after recent indictment of former Councilmember Andrea Cardenas, who pleaded guilty to felony charges in February.

Should a Chula Vista elected official facing felony charges be suspended from office? Should they receive their salary and benefits? What should happen to their staff?

Last year, council members debated whether felony charges alone — not just a conviction — should be grounds for removal from office via a City Council vote. They ultimately decided to forgo that provision in a list of charter amendments that voters approved in 2022.

But when the San Diego County District Attorney's Office filed charges of fraud, grand theft and money laundering against Cardenas in November 2023, many questioned whether Chula Vista should reconsider suspending an indicted official.

Councilmember Jose Preciado said he wanted to explore what other cities do, what the City Attorney's Office recommended and if all of his council colleagues would agree to place the issue on a future ballot, which would cost the taxpayers money.

Councilmember Alonso Gonzalez said he would prefer a subcommittee take up the topic and consider any other additional charter amendments.

While receiving payment from me a Chula Vista Taxpayer and Voter your main priority should be to improve quality of life in Chula Vista

I just do not think that you could ever stop protecting your friends as you already have shown as Chula Vista City Council member and your personal interest.

I personally believe that, if you Carolina were to be elected as a supervisor. There would be NO transparency or communication and that

you would have too many GATE KEEPERS like you presently have

your focus should be my community you would represent.
